MONDAY, AUGUST 22, 1932.
Sun rises 5:05, sets 6:56, E. S. T.
Weather, clear.

The Temperature.

The lowest temperature registered by The Freeman thermometer last night was 66 degrees. The highest point reached up until noon today was 78 degrees.

Weather Forecast.

Washington, Aug. 22.—Eastern New York: Partly cloudy; slightly cooler on the coast tonight. Tuesday partly cloudy.

News of the Day In Wall Street

New York, Aug. 22 (AP)—Unit sales of the General Tire & Rubber Co. for the first six months of 1932 were greater than for any similar period in the history of the company, W. O'Neill, president of the company announced today.

The Du Pont Rayon Co. has increased the price 10 cents a pound on 75 denier and 100 denier yarns, it was announced today. Similar advances are expected to be made by other leading producers. Increased demand for rayon in recent weeks has compelled producers to refuse orders in some sizes.

Eugenic Congress Opens in New York

By HOWARD W. BLAKESLEE
(Associated Press Science Editor)

New York, Aug. 22 (AP)—State paid bonuses for having children of good heredity were advocated at the third international congress of eugenics which opened here today.

Failure of contraceptives to limit births of inferior children was asserted. Abortions were reported beneficial to female health in some cases in Russia, but were frowned on as means of eugenic progress at present.

Protection against immigrant genes even more dangerous to a nation than disease germs was suggested through laws permitting deportation of first generation children of newcomers in any country.

"Equivalence" of women instead of "equality" with men, clothing better suited to motherhood, a tendency in Europe for higher classes to have more children and sterilization of the unfit were mentioned.

The keynote of what the geneticists are fighting was struck in a statement by Theodore Russell Roble, M. D., that the "greatest single cause of mental deficiency (50 to 65 per cent) is poor heredity."

State payment of $50 monthly to parents of good heredity when their third child reaches its fifth birthday and $10 or more for each child in addition was advocated by Dr. Renato Kehl, of Rio de Janeiro. Deaths of children would end payment. He favored also [illegible]

Col. Pangborn Tells Aviation "Thriller"

Against a background of three modern airplanes settled to rest at Parmet Field, where the American Legion Air Meet is being staged, several of the most important aviators to visit this section in a long time, were chatting with onlookers late Saturday afternoon as the sun sank behind the picturesque Catskill mountains. Included in the group listening to the aviation yarns of Colonel Clyde E. Pangborn, noted distance flier, Margery Doig, champion woman aviator; Captain William Diehl, Jr., "Happy" Swede Johnson, Chief Pilot Arnold Bailey, and Lieutenant Jack MacDonald, who comprise a group of barnstorming fliers, were a number of persons who had just taken an aerial trip over Kingston, and two reporters.

"Tell 'em about that experience in Texas, Pang," said one of the group, and the following yarn, sworn to by the remainder of the group, was told.

It seems that Colonel Pangborn with his fellow aviators was giving an exhibition in a Texas town, and that a number of stunts were pulled to draw crowds and get them to fly. One of these caused a near riot and made necessary some daring flying and aerial antics.

One of the pilots, dressed as an old lady, crippled and bent with the years, came slowly across the flying field, leaning on a crooked stick. "I would like to fly, sir," the old [illegible] to the

MR. BRINK WRITES OF CHURCH CEMETERIES.

Lake Katrine, N. Y., Aug. 20, 1932.
Dear Freeman:

Wish you would find room for this little note which I have long had on my mind.

Noticed in your paper of Friday evening last that daily many out of town people stop to read the various inscriptions on tombstones in First Dutch Church yard. I have noticed that for many years.

Doubtless as time passes more interest will be manifest in these ancient grave stones.

It is greatly to be regretted that several stones have been broken and in some cases parts of them removed.

I have spoken of this condition to prominent members of the church, all of whom agreed as to the necessity of some action being taken, but up to the present no action has been taken.

Recently through the columns of your paper someone expressed regret that the clock in the church steeple does not strike. That doubtless should be attended to, but more important still, it seems to me, that some action be taken looking to the repairing and preservation of these ancient memorials.

The deplorable condition of many country cemeteries is well known and should be remedied, but the prominent and central location of this old graveyard, surrounding as it does the most beautiful and historic church in the Hudson river valley, demands prompt and efficient attention.

Respectfully,
THEODORE BRINK.

children were instructed [illegible] of there we go round the mulberry bush," jumping over the hole, singing and dancing. The ruse succeeded.—London Times.

Tennyson Prophecy Amiss

Of Alfred Tennyson, the story is told that when a boy his grandfather asked him to write an elegy on his grandmother, who had recently died, and he put a small sum of money into the future poet's hand on the completion of the "job," saying: "There is the first money you have ever earned by your poetry, and, take my word for it, it will be the last!" A singularly false prophecy, for probably no poet who ever lived made more money by his poetry than Alfred Tennyson.

Spiders Not Insects

Spiders are not classified as insects because their structure is entirely different. Spiders have eight legs whereas insects have only six. Furthermore, in the class Arachnida, which includes in addition to the spider, the scorpions and mites, the head and thorax are grown together but in the Hexapoda, which includes all the insects, the head, thorax and abdomen are distinct. There are other differences but those mentioned are the chief ones.

In a Nutshell

Nothing succeeds like giving the most for the money.

DUTCHESS COUNTY POULTRYMEN TO SPEAK

J. Hunting Otis of Millbrook will be the guest speaker on WGY's Farm Electrification Hour on Wednesday, August 24, at 1:30 Eastern Daylight Saving Time. Mr. Otis will discuss the effects of artificial illumination on egg production.

That the speaker is well qualified is borne out by the fact that he has done active work in connection with the Dutchess County Farm Bureau, the Dutchess County Poultry Association, the New York State Poultry Certification Association, and has been in charge of the poultry exhibits at the Dutchess County Fair.

The Power Behind

It's not how much brain, or muscle, or knowledge you possess that helps you upward; it's what you do with what you have.—American Magazine.

ressure Test against stalling "vapor lock"

Cities Service chemists check vapor pressure, as well as power, quick starting, anti-knock, etc. Any run of gasoline that shows a tendency to vapor lock is sent back to the refinery for reprocessing. And—since vapor lock depends in part on the temperature—any run which fails to fit the climatic conditions of the section where it is to be sold is likewise rejected—never offered for sale. That is the meaning of—"If it's Cities Service, it has to be good."
